

OK! HOT THIS WEEK

THE TRENDS A-LISTERS ARE LOVING

TRAVELING IN STYLE

Danielle Savre, the breakout star of ABC's *Station 19*, arrived at LAX on May 29 looking fresh and fashionable after promoting the series' second season in New York City. And that's how you do a cross-country plane trip!

SUMMER SIPPER

When lazy days at the beach or pool call for a drink that's light, refreshing and carries a bit of a kick, Truly Spiked & Sparkling waters are the way to go. Available in citrus and berry flavors — including new Wild Berry — they're 5% ABV, with only one gram of sugar and 100 calories. Go ahead, get the party started!

THE WURST OF TIMES

Looking for a healthy addition to the BBQ grill? Try the first plant-based sausages that sizzle and satisfy like pork! Boasting 16 grams of plant protein and three varieties — original bratwurst, sweet Italian and hot Italian — Beyond Sausage links are at Whole Foods stores nationwide.

GRAB AND GO

No matter where your summer takes you, from the pool to the hiking trails, Nature Valley Granola Bars are a must-pack snack. These classic granola bars are delicious on their own or paired with your favorite yogurt or fruit.

SAVING FACE

Treat your most delicate skin to the benefits of Youth Corridor Ultimate Antioxidant C Boost Serum, a blend of melatonin and vitamins C and B3 that both protects from the sun and reverses signs of damage. Apply a few drops after cleansing to face, neck and the back of hands to help brighten skin and reduce the look of fine lines. \$195 at youthcorridor.com
